Installation Codes and Requirements for Energy

An FAQ overview of US installation codes and standard requirements for ESS, including the 2026 edition of NFPA 855 and updates to

Department of Energy

Genesis Mission leverages the Department of Energy's unique scientific datasets—spanning more than 100 petabytes of experimental and simulation data across every major domain of science—to double

FY 2026 Budget Justification | Department of Energy

Fiscal Year 2026 Budget Justification documents to support the Department of Energy Budget Request to Congress

Genesis Mission

Genesis Mission brings together the Department of Energy's 17 National Laboratories with America's leading universities and industry, including pioneers in artificial intelligence, computing, materials,

2026 DOE 202 (c) Orders

On January 26, 2026, the Department of Energy (DOE) issued an emergency Order No. 202-26-07, pursuant to section 202 (c) of the Federal Power Act, to Duke Energy Carolinas, LLC and

National Fire Protection Association releases NFPA

NFPA 855: Standard for the Installation of Stationary Energy Storage Systems (ESS), produced in updated form on a three-year cycle,

Chapter 12 Energy Systems: San José Fire Code 2022 | UpCodes

Electrical wiring and equipment used in connection with energy systems shall be installed and maintained in accordance with this chapter, Section 603 and the California Electrical Code.

Battery Energy Storage Systems

According to the National Fire Protection Association (NFPA), an energy storage system (ESS), is a device or group of devices assembled together, capable of

U.S. Codes and Standards for Battery Energy Storage Systems

safety and property protection, and safety of firefighters. Chapter 52 provides high-level requirements for energy storage, mandating compliance with NFPA 855 for detailed requirement

FACT SHEET: The Energy Department Is Delivering On Accelerating

The Department of Energy (DOE) is fully committed to unleashing America's next nuclear renaissance, from reinvigorating domestic supply chains to delivering gigawatts of new reactors.

Residential Energy Storage System Permit Application Guidelines

Rooms and areas within dwelling units, basements, and attached garages in which ESS are installed shall be protected by smoke alarms in accordance with Section R314. A listed heat detector shall be

NFPA 855 Guide: Complying with Fire Code for Batteries

Learn how to comply with NFPA 855 battery fire code requirements for energy storage systems. Key rules, spacing, UL 9540A testing, and

THE STATE OF AMERICAN ENERGY: Promises Made, Promises Kept

The Energy Department is Delivering on President Trump's Agenda of to Unleash American Energy Dominance.

Office of Critical Minerals and Energy Innovation

The Office of Energy Technology will continue to lead the world in research and development for cutting-edge energy technologies, fuels, chemicals, and hydropower.

5.12 Energy Storage Systems in R-3 Occupancies (2022)

Installation Compliance Certification Statement: plans shall include the following designer- signed statement indicating installation compliance: "The ESS installed are in full compliance with the

Renewable Energy Pillar

EERE's applied research, development, and demonstration activities aim to make renewable energy cost-competitive with traditional sources of energy. Learn more about EERE's work in geothermal,

Energy Department Announces Largest Loan in Department History ...

U.S. Secretary of Energy Chris Wright today announced the Department of Energy's Office of Energy Dominance Financing (EDF) has closed a historic \$26.5 billion loan package to

NFPA 855, Standard for the Installation of Stationary

The standard offers comprehensive criteria for the fire protection of energy storage system (ESS) installations based on the technology used, the setting where the

The Nation's Nuclear Reactor Fleet Is on the Rise

The U.S. Department of Energy's (DOE) Office of Nuclear Energy is underway with a new effort that will use existing nuclear energy infrastructure to put more power on the grid. The Utility
