

There is a communication base station EMS outdoors

Overview

When a ham radio operator assembles a home station, it is often set up in a space that will be dedicated to amateur radio activities, creating what is often referred to as the “shack.”. Things can change dramatically when the operator is forced (or chooses) to take the station out of the shack and set it up outdoors. In this. As stated earlier, when selecting equipment for an EmComm or field station, a simple, solid design should be the primary consideration. Having a transceiver that does.
